- Released Fraction Calculator Pro (active development: 2010-2011) in the App Store

SELECT PROJECTS **WHITWORTH PLATFORM, WHITWORTH ASWU; SPOKANE, WA** **2013 - PRESENT**

Created the Whitworth Platform (which powers whitworthclubs.com & whitworthaswu.com) for the Associated Students of Whitworth University. Developed in PHP and backed with a MySQL database. Originally started as a pro bono weekend project and currently on the third iteration moving from a custom build framework to using the Laravel framework. Features a CMS allowing clubs to create and edit their own page and events and supports the FVP with various email lists, and easing the process of club registration, rechartering, and budget committee.

ASK TRUE HOPE, TRUE HOPE CHURCH; SPOKANE, WA **EARLY 2013**

Created website (asktruehope.com) that allowed the community to post questions to the site and vote on their favorite question to be answered. Developed an extensive approval & settings backend (with features similar to phpMyAdmin) using PHP and MySQL; it features a JSON API to communicate with the front page along with email and push notifications.

EDUCATION **WHITWORTH UNIVERSITY, SPOKANE, WA** **2011 - 2015**

Computer Science B.S. w/ Theology Minor

STANFORD UNIVERSITY, STANFORD, CA **SUMMER SESSION 2010**

Programming Methodology (5 Credits) & Oceanography (3 Credits)

OTHER ACTIVITIES Volunteer Website Consultant at Bethany Church (bethanypc.com); transitioned site to Wordpress, assists and customizes as needed
